LIMIS TRANSCATION FLOW

Receiving Methods
- In-person visit
- Courier service
- Representative
- Collection service

Booking Request Entry
- Customer information capture
- Test requirements listing
- Sample details & quantity
- Delivery timeline discussion
- Cost estimation provided

Sample Inward Process
- Customer fills detailed form
- Attach company letterhead
- Sample identification
- Photography/documentation
- Condition assessment
- Storage allocation

Form Validation
- Complete information check
- Required fields verification
- Signature validation
- Authority confirmation

Master Data Setup
- Sample Machining Master
  - Operations & charges
- Sample Cutting Master
  - Methods & associated costs
- Testing Standards Master
- Customer Rate Master

Sample preparation required
- Yes
- NO

Sample Preparation Workflow
- Work order generation
- Resource allocation
- Timeline estimation
- Quality control setup
- Charge calculation

Cutting

Cutting Department
- Specimen preparation
- Precision cutting operations
- Dimension verification
- Surface finish check
- Charge: As per mast

Machining

Machining Department
- Threading operations
- Milling & turning
- Drilling operations
- Finishing operations
- Quality inspection

Comprehensive Review of Request
- Test details & applicable standards
- Testing methods & procedures
- Third Party Inspection (TPI) needs
- Sample preparation requirements
- Marking: Return/Urgent/No Damage
- Resource allocation planning

Sample Assessment
- Physical condition check
- Dimension verification
- Material identification
- Damage documentation

Multi-Department Testing Process
- Tensile testing (Universal Testing Machine)
- Hardness testing (Brinell/Rockwell/Vickers)
- Impact testing (Charpy/Izod)
- Chemical composition analysis
- Metallographic examination
- NDT (UT/MT/PT/RT)
- Dimensional measurement

Mechanical

Mechanical Testing
- UTM operations
- Hardness testing
- Impact testing

Chemical

Chemical Analysis
- Spectroscopy
- Wet chemistry
- XRF analysis

Metallurgy

Metallurgy Dept
- Microstructure analysis
- Grain size measurement
- Phase identificatio

Test Completion & Data Compilation
- All test results collection
- Data validation & verification
- Statistical analysis
- Compliance checking
- Raw data backup

Rework loop work

Review Report Generation
- Technical report drafting
- Graphs & charts preparation
- Standard compliance verification
- Internal review process

Rework loop work

Correction Required
- Technical review feedback
- Re-testing if required
- Data correction
- Quality control review
- Management approval

Authority Approval Check

Not Approved

Final Report Generation
- Official report formatting
- Digital signature application
- NABL/Accreditation logos
- PDF generation & security
- Quality assurance final check

Payment and invoice

WALK IN

walk in customer

Invoice Generation
- Test charges calculation
- Preparation charges
- Tax application

CREDIT CUSTOMER

Credit customer

Monthly billing & invoice genration
Monthly billing & invoice
Customer payment monthly

Payment Processing
- Payment verification
- Receipt generation
- Account reconciliation

Payment confirmation

ok

not ok

Customer notification
- Account update
- Release authorization

Report Link Generation
- Secure link creation
- Raw data accessibility
- Download permissions
- Expiry date setting

Final Report Delivery
- Email delivery
- Physical copy if requested
- Digital signature
- Delivery confirmatio

Sample Management
- Sample return process if required
- Disposal authorization
- Storage extension
- Traceability maintenance
